India expected to be the fastest growing major economy in FY26

IMF growth forecasts for 2025 & 2026

Real GDP (% YoY)			
	2024	2025P	2026P
Advanced Economies	1.8	1.6	1.6
Emerging Market Economies	4.3	4.2	4.0
India	6.5	6.6	6.2

Despite global headwinds such as US tariffs, India to remain the fastest-growing economy, buoyed by resilient fundamentals and strong domestic drivers

Growth to stay strong, backed by consumption, investment, and policy support

RBI expects FY26 GDP growth at 6.8%

Growth resilience powered by:

- Strong consumption, rural upswing, and service export boom fueled expansion
- Agriculture and services continue to stay strong, and push in industrials and manufacturing through government schemes such as Production-Linked Incentive Scheme (PLI), etc.
- Union Budget 2025 unveils measures to boost MSMEs through better credit access, support for first-time entrepreneurs, and promotion of labor-intensive industries
- The GST 2.0 reforms strengthen India's growth narrative through consumption-led expansion - benefiting sectors like retail, agriculture, MSMEs, insurance, FMCG, textiles, auto, and construction

Inflation has remained within RBI's target band

IMF inflation forecasts for 2025 & 2026

	Inflation (% YoY)		
	2024	2025P	2026P
Advanced Economies	2.6	2.5	2.2
Emerging Market Economies	7.9	5.3	4.7
India	4.6	2.8	4.0

RBI has lowered its CPI inflation forecast for FY26 to 2.6%, down from 3.1%

India's retail inflation averaged 4.6% in FY25

✓ **CPI inflation hit a multi-year low of 0.25% in October, on the back of Goods and Services Tax (GST) cuts and contained food inflation despite unseasonal rainfall**

✓ **Latest banking sector insights:**

- Phased reduction of Cash Reserve Ratio (CRR) by 100bps from 4% to 3% expected to release primary liquidity of ~INR 2.5 lakh crores into the banking system
- Three consecutive reductions in repo rate by RBI resulting in a 3-year low of 5.5%, with further room for cuts indicated to help boost growth
- Pace of credit expansion expected to continue to remain healthy in FY2026 - Credit grew 11%+ in FY2025, and 9%+ YoY in Q1 FY2026, and is expected to further pick up pace in H2 FY2026 driven by recent GST rate cuts, high domestic demand and further rate cuts
- Asset quality to remain comfortable despite uptick in slippages - Compared to 1.5% in FY2024, the fresh NPA generation rate declined to 1.3% in FY2025

Banking system in India remains resilient (1/2)

Improving credit penetration in India, yet further headroom for expansion exists

Advanced Economies	95.7	88.7	87.8
Emerging Market Economies	126.8	140.3	153.0
India	50.7	55.2	59.4

- This presents **substantial headroom for further growth and credit expansion** in the coming years
